DATE: June 16, 1989

SUBJECT: 1990 - 1991 Fees for Participation in X3, JTC1/TAG and their Subgroups

The biennial review of the Secretariat budget and current annual service fees has led to the conclusion that fees must be raised for the upcoming two fiscal years if we are to support the projected level of activity. This is the first increase in service fees since 1986.

In adjusting the fees, we reviewed the relative costs to the Secretariat of providing functions, and adjustments in some categories were made to anticipate expected activity levels.

In the past year the Secretariat has made significant strides to improve the operation of the service fee billing system. These will continue and should further improve the yield of fees paid versus fees billed. We also hope the entire process will become more easy for bill recipients, TC officers, and Secretariat staff to comply with.

The new annual fees are as follows:

X3 Memberships

- Producer Company or Federal Government - \$7,500.
- User A (Fortune 500 Industry or Service List Company) - \$5,500.
- Organizations (User Groups & Professional Societies) - \$4,500.
- User B (Companies not covered by User A) - \$1,500.
- Observer - \$2,500.

X3 TC Principal (including one alternate), additional Alternates, or Observers - \$250 each.

Member on SPARC or SPC - \$250.

U.S. TAG for JTC1 if not an X3 Member - \$1,000.

U.S. TAG for JTC1 subgroups (Principal, Alternate, or Observer) - \$250.
