Dear Mr. Lohmeyer,

Radstone Technology is currently working on the design of SCSI-2 compatible products and would like our vendor identification to be included in the Accredited Standards Committee X3T9.2 Vendor Identification List - Appendix J of Rev.8 of the SCSI-2 Working Draft Proposal.

The proposed vendor identification field returned by Radstone Technology SCSI products in response to an inquiry command, when using the standard inquiry data format, as defined in Rev.8, Section 7.2.5.1. of the SCSI-2 working draft proposal, is RADSTONE.

If you need any further information in order to include our identification, please do not hesitate to contact me.

Yours sincerely,
