August 18, 1989

Dear Mr. Lohmeyer,

In reviewing the ESDI revision 3a document Maxtor Corporation requests the following changes to clarify the intent of the proposed standard (X3.170-198x).

- 1) Clause 7.18.3, last sentence: replace the word "master" with "master control".
- 2) Clause K.1, the note following paragraph 3: replace the word "master" with "master control".

These two changes will remove any ambiguity regarding the implementaion of the synchronized spindle feature.

Best Regards,

Lawrence J. Lamers
