February 8, 1990

Dear John,

Recent unanticipated business opportunities make it impossible for ACT Technology to send a representative to the February plenary meeting as we had planned. In light of our membership being currently in jeopardy for lack of attendance, I am requesting your consideration toward our unavoidable absence in February. We have no wish to withdraw from participation in the SCSI Committee at this time and request that the plenary membership vote to accommodate us in our present predicament.

I appreciate your consideration in this matter.

Thank you,

Nathan Lee (P)
