Subject: Postponement of action on Request for Interpretation, #1

I am requesting that the committee postpone any action on the Draft response, Document X3T9.2/90-116, that addresses Brian Earle's request for interpretation of the Medium Partition Page(s), Document X3T9.2/90-98, until I am able to present an alternate response at the next working group.

I have been in contact with other tape drive manufacturers and most feel that the Draft response does not go far enough in clarifying the questions surrounding the Medium Partition Page(s).
