Our Ref: BSR LB 2487

Dear Ms. Barra:

Notification of Approval of Standard

The Board of Standards Review of the American National Standards Institute has approved as American National Standard the following:

ANSI X3.131-1990 Small Computer System Interface - 2 (SCSI-11)  
(revision of ANSI X3.131-1986)

Approval Date: August 31, 1990

This standard will be printed by the Institute in accordance with the submitted manuscript. If any editorial changes were made in the standard that are not reflected in the manuscript enclosed with the formal submittal, ANSI's Technical Editor must be notified immediately. You will receive a separate letter on this matter from the Technical Editor.

Quantity orders for published copies will be billed at a special price if the order can be included with the original printing and you notify Mr. Jules Richardson, Director of Customer Services, of your requirements.

Please inform appropriate personnel of this approval -- officers of standards committee, members of the balloting group, other secretariat, etc. The Institute will insert a notice of approval in a forthcoming issue of Standards Action.

In accordance with BSR Procedures, those objecting to this approval are hereby notified of their right of appeal which must be filed in writing with the Chairman of the BSR within 15 working days after receipt of this notification. The appeal must be based on due process or lack of consensus and include a statement as to why the BSR action should be modified. The BSR will not render decisions on the relative merits of technical matters, but it shall consider whether due process was afforded technical concerns.

Sincerely,

*Louise Germani*  
Louise Germani, Secretary  
Board of Standards Review
