Dear Mr. Fowley,

Subject: Response to EDS Negative on X3LB 1776, Approval of
X3/91-675R, Project Proposal, SCSI-3 Packetized Protocol
and assignment to X3T9.

While X3T9 will welcome any help X3S3 can provide as a close liaison, we disagree with your statement that the SCSI-3 Packetized Protocol should be assigned to X3S3.

X3T9.2 has the most appropriate resource required to develop an efficient packetized version of SCSI's interlocked protocol: SCSI protocol experts. Assigning this project to a group lacking such experts would be a serious mistake.

Thank you for your interest in this proposed project.

Sincerely,

Del Shoemaker, X3T9 Chair
