Subject: Notification of Approval of Standards

The following standards have been approved by The American National Standards Institute on July 2, 1991.

X3.138A-1991 Supplement to X3.138-1988, Information Resource Dictionary System (IRDS) (revision of ANSI X3.138-1988)
X3.170A-1991 Enhanced Small Device Interface (ESDI) (addendum to ANSI X3.170-1990)

This standard will be printed by the Institute in accordance with the submitted manuscript. If any changes, technical or editorial, were made in the standard that are not reflected in the submitted manuscript the ANSI Communications Department must be notified immediately. You will receive a separate letter on this matter from the Communications Department.

Quantity orders for published copies will be billed at a special price if the order can be included with the original printing and you notify us of your requirements.

Please inform appropriate personnel of this approval -- officers of standards committee, members of the balloting group, other secretariat, the organization which has the responsibility for printing the standard, etc. The Institute will insert a notice of approval in a forthcoming issue of Standards Action.

In accordance with BSR Procedures, those objecting to this approval are hereby notified of their right of appeal which must be filed in writing with the Chairman of the BSR within 15 working days after receipt of this notification. The appeal must be based on due process or lack of consensus and include a statement as to why the BSR action should be modified. The BSR will not render decisions on the relative merits of technical matters, but it shall consider whether due process was afforded technical concerns.
