Manager of Membership and Technical-Related Services

Subject: OASIS Update

The Online Access to the Standards Information Service is currently accessible to all X3, JTC1 TAG, and subgroup members. In order to sign up for the service, you need to call CompuServe at 1-800-848-8199 and tell them you want the CBEMA CIM package. If you would like more information on the service, please call me at 202-626-5747 and I will send you a brochure.

For those of you that receive this and are officers, please distribute this letter in your next mailing to the members of your committee.

When you sign up and receive your account # and password, **please go into the X3 bulletin Board section and add your name and ID to the membership list.** It is very important that you do this so that we can track who has signed up and so that other members will be able to access your ID numbers to send you mail.

We are currently looking into the possibility of improving the service by making such documents such as dpANS and Letter Ballots available online. If you have any comments or suggestions, please contact me via email at 75300,2354 or by telephone at 202-626-5747.
