Dear Lynn,

Attached is the dpANS SCSI-2 document (Project 375-R) which includes the ISO Editor's comments. As you may recall, only one public review comment was received (X3T9.2/92-146 from U.S. Design) and it resulted in no substantive changes. U.S. Design accepted the committee response (X3T9.2/92-147) in X3T9.2/92-240.

The Technical Editor, Lawrence Lamers, has incorporated the ISO Editor's changes into the SCSI document and it is now ready to send to X3 for their letter ballot. If you require any additional information to initiate the X3 letter ballot, please contact me.

Thank you,

John Lohmeyer, Chair X3T9.2

cc: Lawrence Lamers, SCSI-2 Technical Editor
        Del Shoemaker, Chair X3T9
