Subject: Request for Sequential Access Device Density Code in SCSI-3

_____

Exabyte requests that a density code be assigned in the SCSI-3 Sequential Command Sets (SSC) table for **Sequential-access density codes** (SSC equivalent of table 198 in X3T9.2/375R rev 10k). This format is required for a product under development. The reference document will be supplied to the committee when it becomes available.

Code Value	Description								Note
	Width		Tracks	Density		Code	Type	Reference	
	mm	in		bpmm	bpi				
xx	8.0	0.315	1	3056	77611	RLL	CS	TBD	5
