Subject: Results of OMC Compliance on X3 dpANS and Call for Patents for:

**Project 855-D, Information Technology - SCSI-3 Parallel Interface (SPI)**

OMC reviewed the above referenced dpANS at their September 1993 meeting and determined that this project is in compliance with the authorizing document.

The X3 Secretariat has assigned the following BSR designation number to the draft:

Project # 855-D has been assigned as X3.253:199x

Since the dpANS have met the requirements, it will be forwarded to ANSI for the public review and comment period. In view of the guidelines agreed to between ANSI, the X3 Secretariat and X3T9, the dpANS will be sent to ITTF and ANSI for pre-edit simultaneously with the public review package.

An advance copy of each draft is enclosed for your review. Please retain the draft documents for future processing. The public review and comment period will extend from October 29, 1993 through February 26, 1994.

In accordance with the X3/SD-2, a call for patent (and other pertinent issues) is now being issued on these drafts. Please notify the X3 Secretariat as soon as possible, but preferably not later than **February 26, 1994**.
