Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday January 13, 2000. He thanked Dal Allan of ENDL Pacific Technologies for hosting the meeting and the lavish feast hosted the night before the morning after.

John verified that a quorum was present, with 14 member companies identified as attending the meeting.

John said that NCITS Subgroup Membership forms and the T10 Mailing Subscription form were available on the document table. He said that people should use the NCITS forms to insure the NCITS Secretariat has the latest membership information. These forms should be mailed directly to the NCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

2. Approval of Agenda

The draft agenda was approved with the following additions/changes:

- 10.1.1 WDTR/SDTR/PPR Interactions (00-119r1) [Penokie]
- 10.1.2 Persistent Reservations Unit Attention Fix (00-114r0) [Penokie]
- 10.1.3 Proposal to Support Partial Loading & Unloading (99-347r3) [Suhler/Milligan]
- 10.1.4 Large LBA addressing using variable length CDB structures (00-125r0) [Houlder/Milligan]
- 10.2 Resolution of SPI-3 Letter Ballot Comments (99-370r2) [Penokie]

No agenda items were added/revised during the course of the meeting.

3. Attendance and Membership

The membership requirements were reviewed. NCITS rules permit one vote per organization. An individual from a new organization must attend two out of three consecutive plenary meetings. He/she may apply for voting

membership the second meeting via a letter to the Chair of T10. The individual may apply for membership and begin voting at anytime following adjournment of the first meeting. Typically, the individual applies for membership and starts casting votes at the second plenary meeting. Working group and other ad hoc meetings do not count toward attendance requirements.

An option that allows a person attending their first meeting to become a voting member immediately following that meeting, provided their NCITS fees have been paid, permits a new member to vote on letter ballots issued between his/her first and second meetings. Unfortunately, this option also means that the new organization is immediately in attendance jeopardy.

To maintain membership, organizations must pay the NCITS Service Fee (\$300). The ANSI International Program Fee (also \$300) is billed at the same time.

John briefly discussed the mailing fees. Complete pricing information is contained in the 2000 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated. The Chair said he had sent letters to 5 people from 2 organizations informing them that their membership was in jeopardy due to non-attendance (see 99-019r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

Iomega Corp.
UNISYS Corporation

Neither of these organizations were present.

John Lohmeyer moved and Bob Snively seconded that the membership of all of the organizations in jeopardy be continued in spite of their failure to attend. Gene Milligan moved and Dal Allan seconded that consideration be deferred to the March meeting. Gene noted the motion to retain membership might set a problematic precedent. The motion to defer consideration passed 6:5:2.

Dal Allan noted that, by deferring consideration of the motion to retain membership, the committee had terminated the memberships. During a discussion of the point, no one present contested Dal's observation. The two organizations in attendance jeopardy were terminated due to lack of attendance (i.e., the principal member was changed to observer status and the first alternate member, if any, was dropped; additional alternates, if any, were changed to observers).

John announced that he had received an email from Roger Cummings saying that the Adaptec acquisition of Distributed Processing Technology had become official on 12/23/99, so the DPT membership was terminated

No organizations requested new (or reinstated) membership.

The T10 membership during the meeting was 39 organizations down from 42 organizations following the last meeting. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

3.1 Voting procedures

John reviewed the voting procedure changes at NCITS regarding the two-week rule, abstentions, the processing of new project proposals. Now that the NCITS procedures have been finalized, John asked that this item be removed from future agendas.

4. Approval of Minutes - November '99 Meeting - Monterey, CA (T10/99-310r1)

The minutes were approved as written.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday January 20, 2000. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

The electronic copies can be sent directly to John by email (at lohmeyer@t10.org), or they can be transferred by ftp protocol to ftp.t10.org and placed in the /incoming directory. In the latter case, please also send email to John informing him of the file name and location of the file.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an email to majordomo@t10.org with the line 'subscribe t10' in the message body.

The NCITS Secretariat maintains a World Wide Web page at <http://www.ncits.org/>. LSI Logic maintains a World Wide Web page on behalf of T10 on a server provided by the SCSI Trade Association at:

<http://www.t10.org/>

The current document register is enclosure (3). The T10 document register is also available at:

<ftp://ftp.t10.org/t10/dr.txt>

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.ncits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954.

A call for patents was made. There were no responses.

8. Project Status Reports

8.1 Project Status Summary and NCITS Liaison [Lohmeyer]

John Lohmeyer said that the current T10 project status summary was included in the T10 Information Packages distributed prior to the meeting and will be included in the mailing as usual.

John announced that four T10 project proposals had recently been approved: SCSI Signal Modeling (SSM) {Project 1414-DT}, SCSI VI Protocol (SVP) {Project 1415-D}, SCSI Primary Commands - 3 (SPC-3) {Project 1416-D}, and SCSI Block Commands - 2 (SBC-2) {Project 1417-D}. These projects will be added to the March agenda.

8.2 SCSI Common Access Method - 3 (CAM-3) Status {Project 990-D} [Dallas]

In the absence of Bill Dallas, no report was presented.

Neil Wanamaker asked if Compaq has an official position regarding completion of the CAM-3 project and received no response. Dal Allan asked for an agenda item at the next meeting to consider withdrawing the CAM-3 project, along with an invitation to the reflector offering the opportunity for other companies to assume the project responsibilities. John Lohmeyer took an action item to notify the T10 reflector that March 2000 meeting will consider withdrawing CAM-3. John Lohmeyer took an action item to add an item to the March 2000 agenda to consider withdrawing CAM-3.

8.3 SCSI-3 Stream Commands (SSC) Status {Project 997-D} [Peterson]

John Lohmeyer reported that SSC is being processed toward first public review. He stated a belief that the public review would begin in early February.

8.4 SCSI Fibre Channel Protocol - 2 (FCP-2) {Project 1144-D} [Snively]

John Lohmeyer reported that FCP-2 is under letter ballot for forwarding to first public review. The letter ballot will close on 2 February 2000.

8.5 SCSI Architecture Model - 2 (SAM-2) {Project 1157-D} [Weber]

Ralph Weber reported that no changes have been made in SAM-2 since the last meeting. He stated a hope that better progress on SAM-2 issues could be achieved starting with the March meeting.

8.6 Multimedia Command Set - 2 (MMC-2) Status {Project 1228-D} [McFerrin]

John reported that MMC-2 is at NCITS for management review and final approval.

8.7 SCSI Primary Commands - 2 (SPC-2) Status {Project 1236-D} [Weber]

Ralph Weber reported SPC-2 revision 14 was prepared following the November meeting and contained all changes approved at or prior to that meeting. Revision 15 will be prepared following this meeting, containing the changes approved at this meeting.

8.8 Reduced Block Commands (RBC) {Project 1240-D} [McLean]

John Lohmeyer reported that RBC completed its second public review without receiving any comments, but the NCITS Secretariat had noticed a processing error at T10. Before RBC can be placed on the NCITS agenda for management review it needs a roll call vote at T10 (or letter ballot) as opposed to a simple meeting vote. Accordingly, John Lohmeyer moved that T10 recommend that NCITS accept RBC Rev 10a as resolving the comments from the first public review and that T10/99-209r1 be accepted as the comments resolution document. Paul Aloisi seconded the motion. A roll call vote passed on a vote of 26:0:1:12=39. Details of the roll call vote were as follows:

Vince Bastiani stated that his abstention was based on lack of expertise.

8.9 SCSI Parallel Interface - 3 (SPI-3) {Project 1302-D} [Penokie]

George Penokie reported that letter ballot comment resolution is complete. SPI-3 revisions 13 and 13a contain all the changes resulting from the letter ballot comment resolution. The difference between revisions 13 and 13a is that 13 contains change bars whereas 13a does not. 99-350r2 contains letter ballot comments resolution information.

8.10 MultiMedia Command Set - 3 (MMC-3) {Project 1363-D} [McFerrin]

Bill McFerrin noted that original plans for MMC-3 were to include the results from the Mt. Fuji 4 group. Bill reported that additional work relating to CDROM recently has been proposed for inclusion in MMC-3. At Ron's request, Ron Roberts will remain the project editor for MMC-3. Minutes of the MMC/RMC working group meeting are available in 00-131.

8.11 Reduced MultiMedia Command Set (RMC) {Project 1364-D} [McFerrin]

Bill McFerrin reported that work on the second draft of RMC is in progress. He described the decisions taken at the MMC/RMC working group meeting (minutes in 00-131). He stated a goal of having a new RMC revision available in two weeks.

8.12 SCSI Parallel Interface - 4 (SPI-4) {Project 1365-D} [Penokie]

George Penokie reported on the activities of the Physical Working Group meetings in December (minutes in 00-102) and January (minutes in 00-120). He stated a goal of having a SPI-4 revision 0 out by the May meeting.

8.15 SCSI Medium Changer Commands - 2 (SMC-2) {Project 1383-D} [Oetting]

In the absence of Erich Oetting, no report was available.

9. Old Business**9.1 Report on T10 Procedures Study Group Meeting [Lohmeyer]**

John Lohmeyer reported that a procedures study group meeting was held on Monday of this week with 10 people present. He briefly described the topics discussed. He noted that a new revision of the T10 policy for project development is expected prior to the March meeting. Gene Milligan's offer to handle the keyboard work on the revision was accepted. John Lohmeyer agreed to provide the marked up foils to Gene and to help with the flowcharts.

9.2 Project proposal for object-based storage devices command set (OSD) (99-312r0) [Milligan]

Gene Milligan moved that the OSD project proposal be forwarded to NCITS for processing. Bob Snively seconded the motion. John Lohmeyer moved to defer consideration of the motion to the March meeting. Dennis Moore seconded the motion to defer consideration. The motion to defer consideration passed on a vote of 11:2:1:25=39.

9.3 Editing RBC for ISO/IEC (99-284r0) [Roberts]

Questions were raised regarding who was editing ISO/IEC MMC drafts and no clear answers were available. Gene Milligan stated that MMC-2 is far behind in ISO/IEC as compared to RBC. (This assertion was corrected during the ISO/IEC status report by noting that he meant to say MMC not MMC-2.) He asked that no actions be taken regarding RBC until who is doing the ISO/IEC editing for MMC and MMC-2 is determined.

John Lohmeyer reported that Don Tolmie had provided an estimate of \$5,000 by email for converting RBC to ISO/IEC format.

The committee reviewed the conversion requirements for MMC and RBC and the procedure for paying editors to perform such conversions. Bill McFerrin was pressed for a statement of interest in having an ISO/IEC version MMC.

Bill McFerrin requested that an item be added to the March agenda to consider withdrawing MMC at ISO/IEC. John Lohmeyer took an action item add an item to the March 2000 agenda to consider withdrawing MMC at ISO/IEC.

The responses to MMC and SBC CD letter ballot comments were on hold until the issue of canceling the Fast Track DIS ballot was resolved. The T10 recommendation to cancel Fast Track was approved by NCITS and forwarded to the JTC 1 Secretariat (ANSI). JTC 1 has canceled and withdrawn the fast track on these two items.

Completion of editing for the ISO/IEC comments by the technical editor on SMC, SES, and FCP is still pending and long overdue.

ISO/IEC business for T10 at this meeting is a decision on SSC.

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Dennis Moore moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved. Neil Wanamaker seconded the motion. The motion passed 12:0:0:17=39.

15. Adjournment

The meeting was adjourned at 12:16 p.m. on Thursday January 13, 2000.
