Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday May 3, 2001. He thanked Zane Daggett of Hitachi Cable Manchester for hosting the meeting.

John said that NCITS Subgroup Membership forms and the T10 Mailing Subscription form were available from the head table. He said that people should use the NCITS forms to insure the NCITS Secretariat has the latest membership information. These forms should be mailed directly to the NCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

2. Approval of Agenda

The draft agenda was approved with the following additions/changes:

   10.5.1 Streaming Clarifications (01-125r1) [Day]
   10.5.2 SPI L_Q error handling (01-147r0) [Penokie]
   10.5.3 SPI-4 reset cleanup (01-128r3) [Elliott]
   10.6.1 Multi-Port Model Discussion (00-268r8) [Penokie]
   10.6.2 Asymmetrical SCSI Behavior (00-232r9) [Moe]
   10.6.3 Logical unit groups (01-004r2) [Elliott]
   10.8 Project Proposal for SRP-2 (01-____) [Elliott]

No agenda items were added/revised during the course of the meeting.
3. Attendance and Membership

The membership requirements were reviewed. NCITS rules permit one vote per organization. An individual from a new organization must attend at least one T10 plenary meeting as an Advisory Member. He/she may apply for voting membership at this meeting, which becomes effective following adjournment of the meeting. Voting privileges begin upon receipt by the NCITS Secretariat of applicable fees for the membership year.

To maintain membership, organizations must pay the NCITS Service Fee ($800).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 5 people from 3 organizations informing them that their membership was in jeopardy due to non-attendance (see 01-116r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

- Circuit Assembly Corp.
- Exabyte Corp.
- Woven Electronics

All organizations in attendance jeopardy were present.

No organizations requested new (or reinstated) membership.

The T10 membership during the meeting was 46 organizations unchanged from last time. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

The following organization requested new membership following the adjournment of the meeting:

- Andiamo Systems, Inc.

T10 membership following the meeting was 47 members.

4. Approval of Minutes - March ‘01 Meeting - Dallas, TX (T10/01-091r1)

The minutes were approved as written.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday May 10, 2001. Documents received after this time may go into a subsequent mailing.
John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

People can obtain T10 document numbers and revised T10 document numbers by filling out a web form at http://www.t10.org/members/. The assigned T10 document number will be sent to the requestor by email. The requestor may then reply to this email, including the document to be posted as an attachment. The document will be automatically posted on the T10 web site.

T10 members can complete this entire process using their personal T10 password; if you do not know your password, go to the above URL and click on the link to have your password sent to you via e-mail. Non-members can also use the above process, but their requests will require approval by an administrator.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an email to majordomo@t10.org with the line 'subscribe t10' in the message body.

LSI Logic maintains a web site on behalf of T10 on a server donated by the SCSI Trade Association at:

http://www.t10.org/

There is also a mirror site at:

The current document register is enclosure (3). The T10 document register is also available at:

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

John presented a foil containing a summary of the ANSI patent policy prepared by Gary Robinson. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

John asked that anyone who knows of applicable patents contact him.

Cris Simpson reported that a statement of the Intel patent policy can be found in 01-041r0.

8.15 Object-based Storage Devices Commands (OSD) (Project 1355-D) [Weber]

Ralph Weber reported that Panasas Inc. has contracted for editing work on OSD. He stated that revision 4 of OSD would be ready for the committee mailing following the July meeting and will be at least a conversion of the document from Microsoft Word to FrameMaker.

Ralph noted that the people designing OSD intend to conduct their preliminary specification work on an e-mail reflector, following the model used by IETF. The reflector will not be the T10 reflector, but subscription information for the OSD reflector will be announced on the T10 reflector as soon as it is available. John Lohmeyer has agreed to archive the OSD reflector.

John Lohmeyer conducted a review of the RBC-2 project proposal. John Lohmeyer moved that T10 forward 01-098r0 to NCITS for processing as a project proposal for RBC-2. Paul Aloisi seconded the motion. The motion failed to meet the 2/3 voting requirements on a vote of 21:1:3:21=46. Bob Nixon noted that he would have voted for

Dal Allan provided the following electronic report to the committee:

The proposals for 1.8" form factors from IBM/Fujitsu/Hitachi (SFF-8110) and Toshiba (SFF-8120) were reviewed and changes were recommended to the next revisions. A new title was recommended for SFF-8110, and the contents will be broken into two specifications for form factor (SFF-8111) and connector position (SFF-8112).

SFF-8421 (HSSDC-2) was reviewed, and the next revision will be separated into the generic specification with variations in keying and pin assignments for InfiniBand and Fibre Channel in separate sections.

SFF-8452 (SCA-3) was criticized for having had the unanticipated result of causing inquiries for samples on the assumption that something better than SCS-2 was necessary for current SCSI implementations. Negative comments on the technical merits were answered and the title was changed.

SFF-8460 (HSS Backplane Design Guidelines) passed the ballot with no technical comments and will be next balloted for publication.
The HSOI (High Speed Optical Interconnects) and HPEI (High Performance Electrical Interconnect) projects are proceeding, and the next revision of HSOI is being prepared for balloting. The technical direction of HPEI was confirmed by new input at the last SSWG (Specific Subject Working Group). The next SSWG will be held May 22-23 at Fujitsu CPI in San Jose.

Projects anticipated before month end are the 4X and 12X connectors by Fujitsu and the SFP (Small Formfactor Pluggable) will be published as an information specification.

George Penokie moved that T10 accept the 2003 meeting dates shown above. John Lohmeyer seconded the motion. In the absence of any objections, the motion passed unanimously.

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.
Zane Daggett moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved through the end of August 2001. Paul Aloisi seconded the motion. In the absence of any objections, the motion passed unanimously.

15. Adjournment

The meeting was adjourned at 11:30 a.m. on Thursday May 3, 2001.
