Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday March 9, 2006. He thanked Chris Lyon of the SCSI Trade Association for hosting the meeting.

John said that INCITS subgroup membership forms and the T10 document subscription forms are available on the meeting web site. He said that people should use these forms to ensure the INCITS Secretariat has the latest membership information. These forms should be mailed directly to the INCITS Secretariat.

As is customary, the people attending introduced themselves. Attendance was taken electronically via the meeting web site.

2. Approval of Agenda

No additions/changes were made to the draft agenda.

John Lohmeyer moved and Ralph Weber seconded that the agenda be approved. In the absence of any objections, the motion passed unanimously.

The following items were added or modified in the agenda during the course of the meeting:

   11.2.1 FCP-3 NWIP
   11.2.2 Remove SSM from program of work
   11.2.3 SAM-3 FCD
3. Attendance and Membership

The membership requirements were reviewed. INCITS rules permit one vote per organization. An individual from a new organization must attend two out of three consecutive plenary meetings. He/she may apply for voting membership the second meeting via a letter to the Chair of T10. The individual may begin voting at the beginning of his/her second meeting. People who continue to attend T10 meetings are expected to join T10 and to pay INCITS Service Fees.

To maintain membership, organizations must pay the INCITS Service Fee ($800 per year).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent emails to 3 people from 2 organizations informing them that their membership was in jeopardy due to non-attendance (see 06-077r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

Amphenol Interconnect
Pivot3, Inc.

All organizations in attendance jeopardy were present.

Had any organizations not been present, their representatives would have been changed to Advisory (non-voting) status.

John noted that McDATA joined subsequent to the last meeting. They had met the criteria for reinstatement at the last T10 meeting, but had not requested reinstatement until February 22nd. Avago Technologies was terminated for failure to pay the 2006 INCITS Service Fee.

John Lohmeyer called for requests to join the committee. Marvel Semiconductor requested and was granted membership.

The T10 membership during the meeting was 46 organizations, up from the 45 member organizations extant at the time the meeting was convened. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

John Lohmeyer reminded members that failure to vote on two out of the last three letter ballots also would result in membership jeopardy. The current letter ballot jeopardy status is as shown:

4. Approval of Minutes - January 2006 - Phoenix, AZ (T10/06-041r0)

John Lohmeyer moved and Ralph Weber seconded that the minutes be approved as written. In the absence of any objections, the motion passed unanimously.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Parthenia Purnell (ppurnell@itic.org) (202) 626-5741. A subscription form is included on the meeting disk.

John Lohmeyer requested that all documents for the next mailing be uploaded to the T10 web site by 10:30 a.m. on Thursday March 16, 2006. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

People can obtain T10 document numbers and revised T10 document numbers by filling out a web form at http://www.t10.org/members/. The assigned T10 document number will be sent to the requestor by e-mail. The requestor may then reply to this email, including the document to be posted as an attachment. The document will be automatically posted on the T10 web site.

T10 members can complete this entire process using their personal T10 password. John explained that members who do not know their password should surf to the above URL and click on the “forgot password” link to have their password sent to them via e-mail.

John noted that non-members can also use the above document number process, but their requests will require approval by an administrator.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an e-mail to majordomo@t10.org with the line ‘subscribe t10’ in the message body.

6. Call for Patents

John Lohmeyer explained that this is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

For additional information on ANSI procedures and the ANSI patent policy, please see the INCITS web page at http://www.incits.org/call.htm. The contact for INCITS patent issues is Lynn Barra (lbarra at itic dot org) or (202) 626-5739. Gene Milligan prepared a useful “Handy dandy Technical Committee’s Patents Guide”, which is available at ftp://ftp.t10.org/t10/document.99/99-291r0.pdf.

John Lohmeyer presented a summary of the ANSI patent policy prepared by Gary Robinson. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

Bob Sheffield reminded the committee that a statement of the Intel patent policy can be found in T10/01-041r0.

Tim Symons noted that he had uploaded 06-149r0, “SAS patent disclosure by PMC-Sierra relating to distributed topology discovery”.

John asked that anyone who knows of other applicable patents to contact him.

There were no other responses to the call for patents other than those mentioned above.

7. Review of Old Action Items

619  Bob Sheffield will prepare SAT r08. Complete.

620  John Lohmeyer will conduct a letter ballot on forwarding SAT r08 to INCITS for first public review. Complete.

621  John Lohmeyer will forward 05-444r1 to INCITS for further processing as a new project proposal for SAT-2. Complete.

622  John Lohmeyer will forward 06-002r2 to the IEEE for posting as an OUI tutorial for SCSI. Complete.

623  Gary Robinson will forward 06-045r0 to the SC25 TAG as an NWIP contribution for SPC-3 as project 1.25.13.11.33, 14776-223, to mark YES on each of the 6 questions, define Gary S Robinson as Project Editor in question 4, and normal standard development track is proposed in question 7. Complete.

624  Gary Robinson will start the process of removing SSM-2 from the SC25 program of work. Complete.
8. Project Status Reports

8.1 Project Status Summary and INCITS Liaison [Lohmeyer]

John Lohmeyer said that the current T10 project status summary was included on the meeting web site and will be included in the mailing as usual.

Terry Nelson reported that work is continuing to review the Open Participation policy statement. John Lohmeyer called for all organizations that are attending regularly to make sure that they pay the INCITS Service Fees since, in his opinion, the motivation to close TC meetings is largely due to revenue concerns.

Gary Robinson reported on INCITS discussions for locating web sites. A proposal to move the T10 web site to INCITS facilities was blocked, in part due to Gary's efforts. Such a move would have eliminated features such as taking meeting attendance.

8.1.1 INCITS Antitrust Guidelines

All T10 members should be aware of the INCITS antitrust guidelines available at http://www.incits.org/natrust.htm.

John reminded committee members that all persons present at a T10 meeting is responsible for identifying potential violations of the antitrust guidelines and reporting them to the chair. Discussions of the following topics are considered sensitive:

* Any company's prices or pricing policies;
* Specific R&D, sales and marketing plans;
* Any company's confidential product, product development or production strategies;
* Whether certain suppliers or customers will be served;
* Prices paid to input sources; or
* Complaints about individual firms or other actions that might tend to hinder a competitor in any market.

8.2 Bridge Controller Commands (BCC) Project 1528-D [Elliott]

Rob Elliott reported that there has been no activity on BCC.

8.3 SCSI Enclosure Services - 2 (SES-2) Project 1559-D [Elliott]

Rob Elliott reported that there has been no activity on SES-2 in the CAP working group. No date has been agreed upon for SES-2 Letter Ballot.

8.4 Fibre Channel Protocol - 3 (FCP-3) Project 1560-D [Peterson]

John Lohmeyer reported that FCP-3 had completed first public review with no comments received. Management review and the INCITS letter ballot will be performed as soon as ANSI completes the document editing.

The FCP-4 Study Group met on Tuesday (minutes in 06-141 and report in 06-159).

8.5 Serial Attached SCSI - 1.1 (SAS-1.1) Project 1601-D [Elliott]

John Lohmeyer reported that SAS-1.1 had completed first public review with no comments received. Management review and the INCITS letter ballot will be performed as soon as ANSI completes the document editing.

The committee discussed the usage of the terms 'fixed' and 'free' regarding connectors in SAS-1.1 and SAS-2. The group agreed to refer proposals for changes to the May SAS-2 Physical working group.
8.6  SCSI Stream Commands - 3 (SSC-3) Project 1611-D [Peterson]

In the absence of Dave Peterson, John Lohmeyer presented a report summarizing the activities of the SSC-3 working group (minutes in 06-142 and report in 06-158).

8.7  MultiMedia Command Set - 5 (MMC-5) Project 1675-D [McFerrin]

Bill McFerrin reported that the working group completed a review of the MMC-5 draft (minutes in 06-156). The group agreed to conduct an MMC-5 forwarding Letter Ballot between now and the May meeting.

Bill McFerrin took an action item to prepare an MMC-5 revision for Letter Ballot. John Lohmeyer took an action item to conduct a Letter Ballot on the MMC-5 revision prepared by Bill McFerrin.

8.8  SCSI Architecture Model - 4 (SAM-4) Project 1683-D [Penokie]

George Penokie reported that no proposals are pending for inclusion in SAM-4 and no new revision will be produced.

8.9  SCSI / ATA Translation (SAT) Project 1711-D [Sheffield]

John Lohmeyer noted that the SAT letter ballot passed 32:9:3:1=45 as documented in 06-081. 17 ballots included approximately 1,500 comments. Bob Sheffield reported on the working group's progress in resolving the comments which are listed in 06-121r0 (minutes in 06-125).

8.10 Object-Based Storage Devices - 2 (OSD-2) Project 1729-D [Weber]

Ralph Weber reported that he is unaware of progress toward developing new OSD-2 proposals by the SNIA TWG.

8.11 SCSI Media Changer Command Set - 3 (SMC-3) Project 1730-D [Banther]

Michael Banther reported on the activities of the SMC-3 working group (minutes in 06-139) and provided an electronic report in 06-146.

8.12 SCSI Primary Commands - 4 (SPC-4) Project 1731-D [Weber]

Ralph Weber reported that SPC-4 r04 will be posted before the mailing and will incorporate all proposals approved by this meeting except 05-248r4 which will not be incorporated until 06-113 is approved to define log subpages.

8.13 Serial Attached SCSI Driver Interface (SDI) Project 1740-D [Elliott]

Rob Elliott noted that any changes to the SDI will be handled in the CAP working group and that no changes are currently proposed.

8.14 Automation/Drive Interface - Commands - 2 (ADC-2) Project 1741-D [Suhler]

Paul Suhler reported on the activities of the ADI working group (minutes in 06-118) and provided an electronic report in 06-143r0.

Paul requested that all technical input for ADC-2 be provided by May 2006.
8.15 Automation/Drive Interface - Transport Protocol - 2 (ADT-2) Project 1742-D [Suhler]

Paul Suhler reported on the activities of the ADI working group (minutes in 06-118) and provided an electronic report in 06-143r0.

8.16 Serial Attached SCSI - 2 (SAS-2) Project 1760-D [Elliott]

Rob Elliott reported that several SAS-2 protocol proposals have been recommended (minutes in 06-124). The SAS-2 physical working group (minutes in 06-145) made no recommendations. A SAS-2 revision will be posted containing all approved proposals in time for the mailing.

8.17 SCSI Block Commands - 3 (SBC-3) Project 1799-D [Penokie]

George Penokie reported SBC-3 r04 has been posed on the web site. No proposals are pending for inclusion in SBC-3, so no new revision is being prepared.

8.18 SCSI / ATA Translation - 2 (SAT-2) Project 1826-D [Overby]

Mark Overby reported that work will not begin on SAT-2 until the SAT Letter Ballot comments (see agenda item 8.9) are mostly processed. New proposals for SAT-2 changes, if any, will be reviewed by the SAT working group.

9. Old Business

9.1 Project Proposal for Fibre Channel Protocol for SCSI - 4 (FCP-4) (06-032r1) [Peterson]

John Lohmeyer led a review of the FCP-4 project proposal (06-032r1). Dave Peterson has volunteered to be the project editor.

John Lohmeyer moved that T10 approve 06-032r1 as a new project proposal for SCSI Fibre Channel Protocol - 4 (FCP-4). Bob Nixon seconded the motion. The motion passed a two-thirds vote of 28:0:0:18=46.

John Lohmeyer took an action item to forward 06-032r1 to INCITS for further processing as a new project proposal for FCP-4.

10. New Business

10.1 Project Proposal for MultiMedia Command Set - 6 (MMC-6) (06-115) [McFerrin]

John Lohmeyer noted that this project proposal did not meet the two-week rule, which is automatically invoked on project proposals. It will be carried over to old business for the May T10 meeting.

10.2 2006 Five-Year Maintenance Review of INCITS Standards (06-084) [Purnell]

John Lohmeyer reviewed 06-084r0, which enumerates seven standards that are up for five-year review. The standards are:

- INCITS 269-1996 [R2001], SCSI-3 Fibre Channel Protocol (FCP)
- INCITS 270-1996 [R2001], SCSI-3 Architecture Model (SAM)
- INCITS 293-1996 [R2001], Serial Storage Architecture - Physical Layer 1 (SSA-PH1)
INCITS 351-2001, SCSI Primary Commands - 2 (SPC-2)

John noted that he had received an e-mail from Jim Nelson requesting that T10 reaffirm FCP (INCITS 269-1996) because FC-AE-2 references it. The T10 officers recommended that all the standards be reaffirmed except SAM because SAM-2 and SAM-3 contain more recent and complete SCSI architectural model information.

The motion passed 36:0:0:10=46 on a two-thirds roll call motion. Details of the voting were as follows:

John Lohmeyer asked people interested hosting one of the above meetings to contact him.
14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Bill Martin moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved through the end of April 2006. Ron Roberts seconded the motion. In the absence of any objections, the motion passed unanimously.

15. Adjournment

John Lohmeyer moved and Ralph Weber seconded that the meeting be adjourned. In the absence of any objections, the motion passed unanimously. The meeting was adjourned at 11:10 a.m. on Thursday March 9, 2006.
