4. Old Business

4.1 SAT - Device Server Password Security (06-070r0) [Stevens]

Curtis Stevens stated that since T13 has approved the clarifications to ATA security for ATA8-ACS he would draft a revised proposal for discussion at the next working group meeting.

5. New Business

5.1 SAT-2: Work Items and Open Issues List (06-497r0) [Sheffield]

Mark Overby reviewed the first revision of the work items and open issues list. He stated that some of these items were carried over from the last open issues list that were listed as SAT-2 items. Discussion was then held about what items should be considered in scope for SAT-2. Various people suggested new items to be tracked for SAT-2. Mark added them to the open issues lists. In addition, Kevin Marks queried what item number 1 (referring to the need to have a way of querying ATA registers in a SAS domain was). After further attempts at recollection and discussion it was decided that this item was no longer needed and would be marked as being deleted from the list. Mark agreed to post revision 1 of the issues list.

6. Review of Recommendations
