

FCP-4 Status Report

(March 15, 2007)

Working group met for 90 minutes on March 13th with 15 attendees.

Meeting minutes contained in 07-136.

Discussion items:

- QUERY TASK, QUERY TASK SET, QUERY UNIT ATTENTION task management functions
- Inconsistent REC ELS reason code

Action items:

- tape vendors to see whether they are able to force the Sequence Count to_zero on Sequence retries
- HBA vendors to determine whether they need to be able to do Sequence retry from relative offset 0
- FCP-2/3/4 error detection implementers to determine REC ELS reason code behavior

Asking for 2 hours meeting time during May 2007 meeting week.
