4. Old Business

4.1 SAT-2: Work Items and Open Issues List (08-023) [Overby]

Mark Overby reviewed the latest work items and open issues list (08-023r1). The group requested changes and Mark agreed to post revision 2.

The cut-off date for new proposals is March 2008. The target date for starting letter ballot is following the July 2008 meeting.

4.2 SAT-2 On disk data format (07-242) [Elliott]

Jeff Wolford asked that this agenda item be deferred to the next meeting.

4.3 SAT-2:Translation of zero-length security protocol commands (07-325) [Overby]

Mark Overby presented 07-325r1, SAT-2:Translation of zero-length security protocol commands. The group discussed the proposal, noting that T13 had created a whole new command to solve the problem. Mark agreed to revise the proposal to deal with a new Send/Receive bit being added to the ACS TRUSTED NON-DATA command.

Mark Overby moved and Ralph Weber seconded that 07-325r2, r1 as revised, be recommended for inclusion into SAT-2. In absence of objections, the motion passed unanimously.

4.4 SAT-2 Additional power management methods (07-485) [Knight]

Fred Knight presented 07-485r2, SAT-2 Additional power management methods, which he had not yet posted. Fred noted that he has received a great deal of input regarding this proposal.

During the SBC-2 letter ballot comment resolution, T10 had accepted a comment (see 04-274r2 comment on page 65, sequence number 24) that removed wording prohibiting the device server from automatically upgrading the power condition upon receipt of a command requiring a higher power condition. As a side-effect of accepting this comment, we should have removed a statement in clause 5.19, START STOP UNIT command, saying "b) the logical unit shall change power conditions only after receipt of another START STOP UNIT command or a logical unit reset," describing the POWER CONDITION field. Fred said he would bring this issue up regarding SBC-3.

The group discussed the proposal and offered numerous other suggestions. Fred agreed to incorporate these suggestions and to post revision 2. He then intends to prepare revision 3 for consideration at the March meeting.

4.5 SAT-2: NV Cache Translation (08-018) [Overby]

Mark Overby reviewed 08-018r1, SAT-2: NV Cache Translation. The group requested changes and Mark agreed to prepare revision 2 for consideration at the next meeting.

4.6 SAT-2 WRITE BUFFER MODE 7 to DOWNLOAD MICROCODE Mode 3 (08-019) [Wolford]

Jeff Wolford asked that this agenda item be deferred until the next meeting.

4.7 SAT-2 START STOP UNIT to STANDBY IMMEDIATE (08-020) [Wolford]

Jeff Wolford asked that this agenda item be deferred until the next meeting.

5. New Business

5.1 SAT-2: ATAPI Translation (07-328) [Overby]

Mark Overby reviewed 07-328r0, SAT-2: ATAPI Translation. The group requested changes and Mark agreed to prepare revision 1 for consideration at the next meeting.

6. Review of SAT-2 working draft [Overby]

Mark Overby noted that he has recently posted SAT-2 revision 2. It incorporates all proposals approved before the November 2007 meeting. He expects to incorporate the remaining proposals in revision 3 and post it before the March meeting.

7. Review of Recommendations

The following documents were recommended for inclusion into SAT-2:

07-325r2 (SAT-2:Translation of zero-length security protocol commands) [Overby]
