Results of Meeting

1. Opening Remarks
George Penokie convened the meeting at 9:00 am, Tuesday, August 16, 1994.

He thanked Bob Masterson of Methode for hosting the meeting.

This is a joint meeting of the X3T10 SCSI Controller Commands working group and the RAB Host Interface working group. The purpose of the group is to deal with interface issues related to using RAIDs. The study group will assess the issues and then formulate a strategy for dealing with them.

As is customary, the people attending introduced themselves. A copy of the attendance list was circulated for attendance and corrections.

It was stated that the meeting had been authorized by X3T10 and would be conducted under the X3 rules. Working group meetings take no final actions, but prepare recommendations for approval by the X3T10 task group. The voting rules for the meeting are those of the parent committee, X3T10. These rules are: one vote per company; and any participating company member may vote.

The minutes of this meeting will be posted to the SCSI BBS and the SCSI Reflector and will be included in the next committee mailing.

2. Attendance and Membership

Attendance at working group meetings does not count toward minimum attendance requirements for X3T10 membership. Working group meetings are open to any person or company to attend and to express their opinion on the subjects being discussed.

3. Approval of Agenda
The agenda developed at the meeting was approved.

4. Report on last RAID Working Group
The last working group meeting was held in Bedford, NH. The minutes of that meeting have been distributed on the SCSI Reflector.

5. Update on proposed working draft
The current revision of the SCC working draft is 1. This revision was distributed at the meeting. Copies are available from the SCSI bulletin board.

6. Review of new figures (Penokie)
George reviewed the new figures that were generated to improve understanding of the volume set data mapping; XOR redundancy mapping; .

7. Additional service action (Penokie)
A service action code (07h) was added for BREAK PERIPHERAL DEVICE / COMPONENT DEVICE.

8. Editorial review of revision 1 (Penokie)
George reviewed the changes incorporated into the revision 1 of the SCC working draft. He pointed out that error codes have been delineated throughout the document.

9. Action Items
a) George Penokie to prepare revision 2 of the SCC working draft.

10. Meeting Schedule
The next meeting is scheduled for 9:00 am - 5:00 pm on September 13, 1994 at the Hotel Sofitel in Houston, TX (800- 231-4621).

11. Adjournment
The meeting was adjourned at 5:00 pm.
