

RBC Working Group Minutes
9 September 1998

Attendees:

Peter Johansson	Congruent
Kazuo Nakashima	Fujitsu
Dan Colegrove	IBM
Tim Bradshaw	lomega
Ralph Weber	LSI Logic
Pete McLean	Maxtor
Mark Evans	Quantum

1. Opening remarks

Pete McLean called the meeting to order and thanked Chuck Brill and AMP for hosting the meeting. The fact that this was an authorized working group meeting of T10 operating under NCITS rules was explained. Attendees introduced themselves and the attendance sheet was passed.

2. Agenda

The agenda for the meeting was presented and accepted without modification.

3. Review of minutes and old action items

The minutes for the previous meeting (T10/98-207r0) were accepted as published.

Action items from the last meeting:

1. Mike Bryan to create 1240D revision 5 - completed.
2. Pete McLean to request that John Lohmeyer issue a letter ballot to forward 1240D rev 5 to NCITS for further processing - completed.

4. Resolution of letter ballot comments

The working group addressed all 65 comments from Compaq, all 68 comments from LSI Logic, the one comment from Unitrode, and 50 of the 65 comments from IBM. Details of the resolution of these comments are contained in the RBC letter ballot comment resolution document T10/98-222r0.

Sun requested that Sun comment 3, inclusion of READ (6), be withdrawn. It was further agreed that Sun comment 5, inclusion of REQUEST SENSE, be discussed on the reflector between now and the next meeting.

5. Review of action items

Mike Bryan is to create the RBC letter ballot resolution document (T10/98-222r0) describing the resolution agreed to at this meeting and propose resolution for the remaining comments.

6. Call for patents

Pete McLean issued the call for patents. There were no responses.

7. Meeting schedule

The next meeting will be held Monday afternoon, 2 November, and Tuesday, 3 November, during T10 plenary week in Palm Springs.

8. Meeting adjourned.
