Dear Mr. Lohmeyer:

Thank you very much for your prompt attention to my request for a copy of the SCSI-2 Revision 2 (X3T9.2/86-109 Rev 2) and the proposed revision 3 of section 14 on the scanner command set. This information will be very helpful to our upcoming Device Exchange Task Force meeting.

Since our Committee has a number of potential interfaces with X3 Subcommittees, I have written Cathy Kachurik for her guidance on how X3 and IT8 should interface. However, we are having a meeting of the IT8 Committee November 18, 1987 in Chicago, Illinois and I am enclosing an invitation to you. This will give you an opportunity to become more familiar with IT8 projects.

I am also enclosing a complete Roster of our activities and a copy of our standard on color picture data exchange. I hope you can join us November 18 and I look forward to a more formal working relationship with X3T9.

Sincerely,

William K. Smythe
Secretary, IT8 Committee
