Dear Mr. Lohmeyer:

Please be advised that U.S. Patent 4,808,125 does not prevent others from practicing the SCSI-2 standard interface, consistent with X3T9.2/88-033 dated February 22, 1988. The patent covers particular design features outside the scope of the standard that are incorporated in AMP's product that is compatible with the standard.

Sincerely yours,

David L. Smith
