

Accredited Standards Committee
X3, Information Processing Systems*

October 10, 1989
Project 587-D

Mr. Delbert Shoemaker
Digital Equipment Corp.
1331 Pennsylvania Ave.
Suite 600 MS WNP
Washington, DC 20004

Dear Del:

Subject: Follow-Up to X3LB 1228, Approval to Forward BSR
X3.170-198x, Enhanced Small Device Interface, (ESDI),
to ANSI for FINAL APPROVAL as an American National
Standard (REF. X3/89-1138)

The above referenced ballot closed with a final tally of 34-0-2-4 (APUE, DECUS, Kodak and RTUA). APUE will not be placed on the jeopardy list, due to an administrative error by the Secretariat. Since there were no negatives, there will be no reconsideration ballot.

The comments which accompanied the ABSTENTION votes:

Prime: "Prime's position should be abstain because we have
not used ESDI and have no plans to use it."

MAP/TOP: "Lack of Expertise in Area."

In accordance with the SD-2, Section 9, Milestone 16, the Secretariat will forward this dpANS to ANSI immediately for FINAL APPROVAL as an American National Standard. An ANSI technical editor will be in touch with you when the final editing is to begin. Congratulations to X3T9.

Sincerely,

Lynn Barra
Administrator, Standards Processing, X3
