13 April 1992

Mr. Dal Allan  
Vice-Chair, ASC-X3T9.2  
ENDL  
14426 Black Walnut Court  
Saratoga, CA 95070

Dear Mr. Allan,

In a recent meeting with Mr. Edward R. Kelly, so I am informed, you made a request for the status of two standardization efforts within IEC/SC 48B. I am pleased to give the following information for your use:

1. The document to standardize trapezoidal shaped connectors with contacts on .050 centrelines, rectangular pin contacts [48B(Sec)199] is in preparation to be circulated as a Committee Draft plus Vote (CDV). This document should be circulated by 1 June 1992 and, hopefully published as an IEC Standard during 1993.
2. The document to standardize trapezoidal shaped connectors with contacts on .050 centrelines, ribbon contacts, is in preparation for voting as a New Work Item Proposal (NWIP); this draft is being prepared by the Japanese National Committee and should be circulated for vote by 1 September 1992.

If you have any questions on either of these documents, please do not hesitate to call me.

Regards,

Secretary, IEC/SC 48B

cc: E.R. Kelly
