**Subject:** Response to Public Review Comment #1 on BSR X3.221, AT Attachment

Dear Mr. Whatcott:

Thank you for your interest in the draft AT Attachment standard, BSR X3.221. Your comment points out that there is a need to determine whether the ATA device supports read/write multiple commands correctly and that there is a need for a method of determining the read/write multiple block size.

X3T9.2 has accepted your comments and incorporated changes to accommodate your concerns although not exactly in the same manner as you proposed. Enclosed is a copy of latest revision of the AT Attachment draft standard which includes these changes.

We appreciate your interest in improving the draft AT Attachment standard.

Please send a written statement to the X3 Secretariat (Attn: Lynn Barra) within fifteen days saying whether you accept or reject this response. If you do not respond within fifteen days, the Secretariat will assume that you have withdrawn the comment.

Sincerely,

Del Shoemaker, Chair X3T9

cc: Lynn Barra, X3 Secretariat  
John Lohmeyer, X3T9.2 Chair
