Dear John,

Thank you for your comment on SCSI-3 Parallel Interface (SPI) Rev 12a that accompanied your X3T9 letter ballot. Your comment objected to specifying a multi-wipe contact design and recommended that a performance specification be substituted.

While X3T9 received your letter ballot past the close of the balloting period, I have added the topic to the X3T9.2 agenda for the July 22-23, 1993 meeting. I am also hoping to work out details for alternative proposed wording at the Protocol Working Group meeting on Wednesday morning July 21st.
